About Us

Iseli Energy is a leading company offering B2B services and products with exceptional customer experience to enhance decarbonized, decentralized and dispatchable solar solutions in Africa.

Become a Partner

Iseli Energy provides a 360 degree approach.

FORWARD-THINKING

Our culture is built around continuous innovation in terms and products and solutions with the objective to always generate more value to our customers while ensuring them a competitive advantage.

HIGHEST QUALITY STANDARDS

Our mission is to provide you with the best quality products and services. We pride ourselves on one of the lowest return rates within the industry thanks to a rigorous component selection and state-of-the-art testing procedures.

CUSTOMER CENTRICITY

Customers are at the heart of our strategy and thanks to our 360° solution, everything is geared toward making business as convenient, simple and cost-effective as possible. Our aim is to help you to focus on your core activity and to grow your business.

A Complete Range of Services

to grow your business

1 STOCK AVAILABILITY

We secure stock at all time and guarantee your peace of mind to deliver projects in the best timing.

2 PARTNER PROGRAM

The program has been specifically designed to empower your business and optimise your bottom line. It includes a set of advantages and services that you access once registered

3 TAILORED DESIGN

We offer custom made solutions to suit any project. Based on your site assessment and project guidelines we design on your behalf the optimum Solar Solution

4 LOGISTICS

Thanks to our industrial approach and the expertise from professionals, we can handle the logistics in a competitive manner and totally seamlessly until your customer's doorstep.

5 PROXIMITY

Based on your geographical location, you can collect your goods from any of our warehouses in Cape Town, Johannesburg, Bloemfontein, Port Elizabeth and Windhoek.

6 TECHNICAL SUPPORT

Our team of engineers will provide you with all the technical support needed and ensure successful completion of all projects.

Dedicated to Solar Professionals

Your One-Stop-Shop Expert

to make servicing your client easier

ACCESSORIES

We offer high quality Solar PV Cable, MC4 and T-Branch Connectors. We also supply high quality aluminium solar panel mounting structures, for all types for roofing applications, including IBR, Corrugated, Tile, Slate, Clip-lock roofing systems . We also offer customised ground-mounting solutions.

MODULES

Our complete range of solar modules from 10Wp to 550Wp is IEC certified by TUV and has been specially designed to satisfy any needs. Rigorous component selection and Quality control plan ensure robust performance during the time while offering you the best value for money.

INVERTERS

Our large range of inverters has been carefully selected from top suppliers to cover residential and C&I applications. Combined with our technical support, you will always make the perfect choice to satisfy your different needs: Grid Tied, Hybrid and backup systems.

SOLAR BATTERIES

The hybrid AGM G+ range and the 4.8kW Lithium Iron Battery offer resourceful solutions for small and large systems and for backup and hybrid applications.

Technical Solutions

to satisfy any solar need

We have extensive experience in the development of various solar projects, designs and developments. Our team of experts are on call to assist you and your business.
